

Sabiha Imran

Education: MS Computational Linguistics, Georgetown University, Washington, DC

Experience:

I teach ESL and Computer classes at Worker Education Program and develop the WEP website. I have been teaching ESL, math and computers to students from various linguistic backgrounds since 1976. I have also been developing academic websites and software tools for TESOL. The library of Congress gave me copyrights for my language parser and grammar checker that I developed for teaching English to speakers of Hindi/Urdu.

My Teaching Philosophy:

I believe that we learn best by doing things rather than being taught how to do them. Benjamin Franklin said: Tell me and I forget; teach me and I remember; involve me and I learn.
